May 18-65

1. Timing of mtg — depends upon area — could pick area — do a kind of "model" report on single area — solicit CRWB guidance & comments — proceed accordingly

Chairman — distributed guide questionnaire for comment. Distribution — mail or hand carry. Agenda — to use as guide & note taking record. Reasons for lack of consultation? Policy and possibility. Lack of Am Commun org — Desk Off — Area Specialist — Functional Specialist — creates number of people. Distinction between initial contact thru org channels — vs direct continuing person-to-person.

Organizational structure affects Am Comm problem (Other factors - nature of analysts responsibilities). Operating relationships of Community - Existing - vs - Should operations.

Org structure aspect - new dolpint - problem
Task Force relieves common problem - primarily SI in Standard or routine activities rather than crisis SIT.

Agreed to review QR and add - and bring to next meeting. Aim of the game today - to agree on the area - most still from SA - even though many are too damn busy to talk to anybody. Dom Rep people only small slice of total SA contingent. Bring to

mtg meeting couple options of exec organization & exchange. Tentatively agreed on SA as first area to explore. ~~Multiplicity of factors~~ that and check out empirically if we move into LA. Agreed to multiplicity of factors affecting analyst comm problem — do we have several problems — not just one-? — pre-generalized problem definition.

Next meeting Tuesday — 10:30 —

Sanyley. Main aim of group — contribution

Minutes Next to Lin — although to have number & Ground Rules up to Chief —

Common Problems

April 6 '65

I. Membership –

PI vs CI – stick to CI – initially

STATINTL stick to general analytic comm problem –

[redacted] – why cut off comm with sector

(S&T) with which and wherein comm such

STATINTL a problem. [redacted] – cover thru DDI S&T Directorate

STATINTL S&T (DDI) should have rep to group –

STAT [redacted] can handle for CIA (S&T) –

[redacted] – (cut back problems to a couple cases

or examples) – main purpose should was to see

if DDI could contribute or should be on Team.

Sec suggests Washington area for defining area of

STATINTL inquiry. STATINTL [redacted] – Key Terms broad. [redacted]

– to see if CI aided on Team –

State has directory — ref I(B) - could security be surmounted (DDP) - (STATE Pol Desks) DDP problem - whos who in what field - principal of single points of contact — avoids tasking each other inadvertantly. Analyst-to-Analyst — personal basis works fairly well - prob in firm field — problem arises when you need to go outside your field. usually on single problem basis — and handled on fairly satisfactory basis. A to A Comms + machines Analyst ruling as to who is worth talking to —

STATINTL [redacted] — liaison with strange shops — i.e., State should have a DDP liaison type [redacted] by groups same as Comms prints — Do analysts have
